

# SOUNDFORM™ Flow Noise Cancelling Earbuds

SOUNDFORM Flow earbuds with Active Noise Cancellation (ANC) technology use feedforward ANC microphones to seek and eliminate outside noise. You'll get the most out of your favorite songs, podcasts and important calls as you hear each detail in stunning noise-free clarity. Phone calls connected through dual beamforming technology feel like an in-person conversation. Each earbud has two microphones—a vocal mic accurately capturing speech and a feedforward ANC microphone that filters out distracting environmental sounds so you can focus on audio as you'd like to hear it. The convenient Hear-Thru mode helps you stay alert to your surroundings for safety or speak to people around you while on a call or listening to music. Up to seven hours of battery life per charge and another 24 hours of power in the wireless charging case offer true all-day listening pleasure. With IPX5-rated sweat- and water-resistant materials to keep up with weather and workouts, and easy connection via Bluetooth® 5.2, SOUNDFORM Flow is the perfect choice for no-noise premium audio that lasts all day.

## Product Benefits

- Active Noise Cancellation technology features a feedforward ANC mic that intelligently eliminates outside noise
- Hear-Thru mode helps you stay alert to your surroundings
- 12mm dynamic drivers with neodymium magnets deliver powerfully vivid audio quality with impactful bass
- Dual beamforming call technology ensures you can clearly hear and be heard as if you're in the same room
- 31 hours of total battery life: 7 hours of playtime in the earbuds, plus another 24 hours of power in the case
- Wireless charging case offers convenient wire-free charging on any Qi-capable charging pad
- 60 minutes of playtime with just 10 minutes of USB-C charging
- Fast USB-C charging provides a full 35-hour charge in only 2 hours
- Sweat- and water-resistant IPX5-rated materials protect through bad weather and tough workouts
- Bluetooth 5.2 offers easy connection to devices up to 33 ft./10m
- Wire-free, button-free touch offer true mono mode in each earbud
