(Ask your compulocks contact person)

All tablet enclosures with 75 x 75 or 100 x 100 mm VESA pattern

PRODUCT

Articulating monitor mount

SKU: 660REACH

PRODUCT

The articulating "Reach" monitor arm mount is designed for the desk or a counter. Optionally a wall bracket can be ordered, so that the reach arm can be attached to the wall.

The Reach is a movable stand with articulated arm and cable management. Its 75 x 75 and 100 x 100 VESA pattern is suitable for all our enclosures, as well as numerous computer monitors and screens up to 30 inches with the same VESA patterns.

The monitor mount has a wide range of motion and allows tilting and swiveling of the screen. The determination of the angle is ensured by clamping screws.

MONITOR MOUNT

- Compatibility: Screens with 75 mm or 100 mm VESA pattern
- Arm holder is extendable by 61 cm and has 40 cm lifting height
- Quick and easy fastening
- Screwless table clamp
