

Disposal and recycling information

The crossed-out wheeled bin symbol means that this product must be disposed separately from household waste. As an end user, you are obliged to dispose the product in accordance with the respective national regulations for separate collection, for example by depositing it at an official collection point. Returning it to the retailer is also possible if the distributor offers voluntary return or is legally obliged to do so.

Separate collection is a valuable contribution to the protection of the environment and human health, as the proper treatment of waste equipment avoids potential negative effects caused by the presence of hazardous substances and protects raw materials by recovering them.

In addition, please note that waste prevention makes an even more valuable contribution to environmental protection. Where possible, therefore, in addition to continued own use or repair, handing over to secondary users is an ecologically valuable alternative to disposal.

ARTICONA

Introduction

This ARTICONA Universal Adapter Set lets you easily connect various brand notebooks that have a 19–20 V barrel connector (depending on model), with the latest USB-C power delivery adapters.

Comes with a 1.5 metre connection cable and a 15 DC adapter that offers broad compatibility with many current HP, Lenovo, Dell, Samsung, ASUS, and other brand models.

Specifications

- 1.5 m long, black USB Type-C connection cable to use with Power Delivery power supplies.
- 15 DC Adapter for HP, Lenovo, Dell, Samsung, Asus
- **Depending on the notebook, power adapters with 20 V can be used from 45 W and up to a maximum of 100 W power.**
