- Network streaming via UPnP
- WiFi streaming function (DLNA compatible)
- Wireless connection thanks to wireless LAN technology
- WiFi-protected setup

System Requirements:

A wireless Internet connection (WLAN) must be present to use the radio.

Note for Consumers:

DAB/DAB+

The DAB/DAB+ provision is being expanded in numerous countries. Find out more about the current roll-out situation on the Internet or in a specialist retail store. A general overview of the global network expansion can be found at www.worlddab.org

To improve reception of FM or DAB/DAB+, position the device near a window. You will require an available socket (100 - 240 V) to operate the device.
