ARTICONA USB Switch 2 × PC / 4 × USB

Article number: 4851145

With this USB switch, you can connect up to four USB peripherals to two USB hosts. The hosts can be notebooks, PCs, tablets, smartphones, or other devices with USB-C or USB-A ports. The peripherals support data transfer rates of up to 10 Gbit/s. Save time by avoiding the need to unplug devices and switch them conveniently with the push of a button or a hotkey.

- USB switch for connecting 2 PCs/notebooks and 4 peripherals.
- Switching is done via a button on the switch or via mouse or keyboard hotkey commands.
- Suitable for data transfer rates of up to 10 Gbit/s.
- Includes two USB-A/C to USB-C connection cables for the hosts (cable length approx. 1 m)
- USB-A to DC cable for optional power supply (cable length approx. 1.5 m).
- Connections: 2 × USB Type-C socket, 4 × USB Type-A socket, 1 × DC socket (for additional 5 V power supply).

Specifications:

Product type	USB interface converter
