USB-C Dock, HDMI/VGA

Article number: 4418375

This portable docking station expands the connectivity of the notebook. An HDMI and a VGA video connection make it possible to connect an additional monitor. The RJ45 port of the docking station supports the PXE boot function of the connected notebook/PC (if it also has this function). For the functions of the monitors and the power supply, the USB-C port of the notebook must support the DP alt mode (MST) as well as USB Power Delivery, or Thunderbolt connection. A USB-C power supply unit is required to supply the notebook with power: this is not included in the package.

Please note: the HDMI and VGA connections cannot be used at the same time - Single Display.

Regarding the power supply, please note: The docking station draws up to 15W for its own use. Use a power adapter with enough power. For example: if you use a 65W power pack, then 50W goes to the notebook.

- Compact, portable docking station with power delivery up to 100W
- 1x HDMI connection, 1x VGA connection for an external monitor
- HDMI resolution 4k@30Hz, VGA resolution 1920x1200@60Hz
- 2x USB type-C connections (1x for power delivery, 1x for data)
- 2x USB type-A connections for external devices
- 1x SD slot and 1x micro-SD card slot
- 11cm long, integrated cable
- Compatible with Windows and Mac operating systems

Specifications

Product type	Dock
Connections	1 x HDMI 1 x VGA 1 x RJ45 2 x USB 3.0 Type-A 2 x USB 3.1 Type-C
Special features	SD card slot MicroSD card slot
Resolution (max.)	4096 x 2160 at 30 Hz
Effective power (W)	100 W
Dimensions (B x H x T)	122 x 70 x 14 mm
Weight	0.090 kg
Compatible devices	Universal
Includes	USB Type-C cable
