

ThinkPad P16v Gen 2

The all-new ThinkPad P16v Gen 2 balances extreme power, optimum portability and seamless user experience to accelerate workflows. The Intel® Core™ Ultra H Series processor marries productivity and experiential wow of AI without the worry of performance lags and battery drain. The optional NVIDIA® RTX graphics boosts your creation- from editing high-resolution videos to running complex AI simulations. An impressive 90Wh battery and Rapid Charge support elevates productivity, while the MIL-SPEC durability shields it from the everyday knocks and bumps.

Professional machines for advanced users

Designed for business users who tackle compute-intensive workflows. With professional-grade graphics and powerful, multi-core processors, Lenovo sets the standard for mobile workstations and ensures best-in-class reliability even when you're away from the office.

Let your imagination run wild on the stunning WUXGA IPS screen that presents clear, pixel-sharp images every time without fail. The cinema-grade 100% DCI-P3 color gamut makes your visuals appear vivid, color-corrected and more life-like. The TÜV Low Blue Light certification ensures flicker-free display and reduced eye strain during long hours at work.

With ample up to 96GB DDR5 memory, users can run heavy datasets, spreadsheets and multiple resource-intensive applications simultaneously without experiencing significant slowdowns or performance bottlenecks. Plus, the up to 4TB SSD storage offers quicker loading times for statistical software applications.

Intel® Arc Graphics and NVIDIA RTX Graphics offer substantial graphics processing power, which is crucial for tasks such as rendering 3D models, applying complex filters and effects, and handling high-resolution images. This enables Photoshop users to work with intricate designs and detailed images without experiencing lag or slowdowns.
