

Telescopic Laptop Stand, 360 Swivel Base, Rotating Computer Riser for Desk, Adjustable Height and Tilt, Max 11lb/5kg, Aluminum Build, Portable Design

Product ID: ATER-LAPTOP-RISER

This rotating laptop stand raises laptops to a more natural viewing position. A compact and ergonomic solution for improving workspace comfort. Ideal for desks at home, in the office, or on the go.

The telescopic column extends up to 4.9in (12.5cm), helping to elevate the screen's position closer to eye level for improved posture and viewing. The base features a 360 swivel mechanism, allowing effortless rotation of the entire stand for quick adjustments, screen sharing or collaborative work without moving the stand. The laptop tray also tilts to help optimize viewing angles. Slide stops keep the device secure when tilted, and rubber pads protect against cosmetic damage. The column tension can be adjusted using the included tool.

The stand is made from aluminum with a silver anodized finish for a sturdy build and clean look. The vented platform promotes passive airflow to aid heat dissipation and maintain stable device temperatures. The space underneath the laptop platform can be used to place a keyboard, mouse, or other accessories and peripherals when not in use. When collapsed, the riser measures 9.2x10.2x3.1-inch (23.5x26x8cm), making it easy to transport and store.

Certifications, Reports and Compatibility

Applications

Features

- **ERGONOMIC ELEVATION:** Raise a laptop to eye level for improved posture and all-day comfort; 360 rotating telescopic column offers flexible positioning extending up to 4.9in (12.5cm); Adjustable tension to support different laptop weights up to 11lb (5kg)

- **VENTILATION:** The vented aluminum tray allows for passive airflow underneath the laptop or Ultrabook for better heat dissipation, while the elevated design improves overall air circulation around the device to help maintain stable temperatures
- **PORTABLE & SPACE-SAVING:** Foldable and lightweight at just 3.7lb (1.7kg), this compact laptop holder fits easily into your laptop bag; Elevated tray creates usable space underneath, helping you to keep your desk organized
- **DESK-FRIENDLY:** Designed with a wide 9.2x10.2in (23.5x26cm) base and anti-slip pads to protect desk surfaces and keep the stand stable; Laptop tray features slide stops and grip pads to limit device movement
- **VERSATILE APPLICATIONS:** The swivel and height-adjustable design supports various tasks, from light typing, video calls to customer interactions or product presentations; Ideal for home offices, workstations, classrooms, retail counters, or mobile setups
