VeriMark™ IT Fingerprint Key

Part number: K64704EU | EAN code: 5028252603751

Supports Windows Hello™ and Windows Hello™ for Business, Azure, Active Directory, Office 365, Skype, OneDrive and Outlook — Ideal for enterprise deployment and easily integrated into current IT infrastructure. Users keep their key for secure login to popular services, while IT can easily manage employee access, privileges and passwords.

FIDO2/WebAuthn compatible — Enables the latest web standards approved by the World Wide Web Consortium (W3C). Authenticates without storing passwords on servers, providing business professionals more security, convenience, privacy and scalability.

Match-in-Sensor™ fingerprint technology — Exceeds industry standards for False Rejection Rate (FRR 2%) and False Acceptance Rate (FAR 0.001%). Fingerprint data is secured in the sensor, so only an encrypted match result is transferred; versus match-on-host, where unsecured fingerprint data is transferred.

Robust design — Durable zinc alloy body with LED accepted/rejected indicator, and flared tail for easy grip.

Protected privacy — Designed to secure the fingerprint data it collects, and can be used to support a company's cybersecurity measures consistent with (but not limited to) such privacy laws and regulations as GDPR, BIPA and CCPA.

VeriMark™ IT Fingerprint Key

Part number: K64704EU | EAN code: 5028252603751

System requirement

Operating systems supported	Windows 7, 8.1, 10
Plug & Play	Software installation required for Win 7, 8.1 Driver will automatically be downloaded via Windows update
Web authentication	Only Win10 support Edge™ (version 44.18362.1.0 and later) Firefox® (version 66.0.32 and later)
Software	Kensington Fingerprint application (for Win 7, 8.1)
USB interface	Support USB 2.0/3.0 type A

Security

Secure fingerprint match-in-sensor	Synaptics FS7600
USB data encryption	AES-256/SHA-256 SSLv3 for secure session establishment TLS 1.2 for secure communication RSA-2048 public key cryptography for key exchange, authentication and data validation
False Rejection Rate (FRR)	2%
False Acceptance Rate (FAR)	0.001%

Product dimensions

Unit width	16mm (0.6in)
Unit length	22.5mm (0.9in)
Unit height	9.5mm (0.4in)
Unit weight	4g (0.14oz)
Enclosure colour and material	Zinc alloy

Power and environmental

Power imaging	100mA @ 5V
Power standby	5uA @ 5V
Relative humidity	5% to 95% non-condensing
Operating temperature	0 to 45° C (32 to 113° F)
Storage temperature	-40 to 85° C (-40 to 185° F)
