Every device with standardized T-slot

PRODUCT

Cable Lock

WARRANTY

1 year

PRODUCT DESCRIPTION

Secure your device with 6ft galvanized steel cable compatible with standard security slots and loop end for "anywhere" tethering.

This best-seller protects all Laptops, Monitors, iMacs, and other computers with security T-slots against theft. This universal security cable lock has a loop-ended cable made of galvanized steel. Tether the cable lock to a secure and stationary object, like a desk or table, and you're done.

Its slim T-bar design fits the highest standards and is slimmer than most cable locks. The locking head is designed to fit with standard security slot for PCs, laptops, and our enclosures and some stands.

Included in the scope of delivery is a cable lock with 2 keys.
