Description

- **QVR Pro Gold**
  - 8 additional channels for QVR Pro
  - Unlimited playback time
  - Added ability to be centrally managed in QVR Center
  - Note: You can only activate one QVR Pro Gold license on each QNAP NAS.
- **QVR Pro - 1, 4, or 8 Channel(s)**
  - 1, 4, or 8 additional channel(s) for QVR Pro

Supported Models

For the best surveillance experience, we recommend using 64-bit x86 NAS models with at least 4 GB RAM.

System Requirements

- QTS versions 4.3.4.0483 build 20180213 or later
- Container Station 1.6.1588 or later (Container Station must be installed before running QVR Pro.)
- Recommended web browsers: Google Chrome 52.0 or later, Mozilla Firefox 48.0 or later
- Supported display resolution: 1366 x 768

Note

- The license can only be used on one QNAP NAS and is not transferable.
- The actual performance may vary, depending on your NAS model, system configuration, and camera quality.

License Activation

You need to activate purchased licenses to access features provided by the license. You can activate QNAP or QNAP-affiliated licenses using the following methods.

Activation Method	Description
Using QNAP ID	Licenses purchased through Software Store are stored in your QNAP ID account. They can be accessed through both License Center and the QNAP License Manager website.

Activation Method	Description
Using a license key	You can generate the 25-character license key after purchasing licenses through the QNAP Software Store. For details, see Generating a License Key. You can use license keys to activate licenses in License Center. For details, see Activating a License Using a License Key.
Using a product key	The 25-character product key is purchased together with the product from either QNAP or an authorized reseller. The product key is normally printed on the product package. You can use product keys to activate licenses in License Center. For details, see Activating a License Using a Product Key or PAK.
Using a product authorization key (PAK)	The 24-character PAK is purchased together with the product from either QNAP or an authorized reseller. The product key is normally printed on the product package. If you are using NAS devices running QTS version 4.3.4 or older, use PAKs to activate licenses through License Center. If you are using NAS devices running QTS version 4.3.4 or later, you can transfer PAKs purchased from the Old QNAP License Store to NAS devices. For details, see Activating a License Using a Product Key or PAK.
Offline	Use this method when the NAS is not connected to the internet. For details, see Activating a License Offline.
