ARTICONA 2 × C bidirectional USB-Switch

Article number: 4852629

With this USB-C switch, you can, for example, connect two notebooks to a USB-C monitor or docking station. You can also connect two peripheral devices to your notebook and switch between them. Save the time of plugging and unplugging devices and switch them conveniently with the push of a button. Note: Thunderbolt cables and devices are not supported.

- Use a USB-C device such as a monitor or docking station with two notebooks or computers.
- Use two USB-C devices such as a charger with up to 100 W or storage devices with a notebook or computer.
- Resolution up to 8k, data transfer rate up to 10 Gbit/s.
- For best signal quality, use short, high-quality cables (2 × 1 m C-C cables included).
- 1 m USB power cable for optional power supply included.
