

# USB 3.0 7-Port Hub with 2 Charging Ports UH720

## Highlights

- Increase the Number of Available Ports
- 10x Data Transfer Speed
- Extra 2 Charging Ports for All Your Devices
- Exclusive TP-LINK Smart Charging Technology Invented to Charge Fast
- Protect Both Your Devices and Precious Data
- Plug and Play without Installing Driver
- Considerate Design

No Need to  
Unplug One Device  
for Another Again

10x Data Transfer  
Speed

Extra 2 Charging Ports  
for All Your Devices

Exclusive TP-LINK  
Smart Charging  
Technology Invented  
to Charge Fast

Protect Both  
Your Devices and  
Precious Data

Plug and Play  
without Installing Driver

# Features

## Increase the Number of Available Ports

More computer accessories are needed for operation such as mouse, printer, harddisk, USB drive, etc, while fewer ports can be found in your computer. One has to unplug one device for another. With TP-LINK UH720, it provides 7 additional USB ports for connection and you do not need to worry about the number of ports in your computer anymore.

## 10x Data Transfer Speed

The 7 USB 3.0 ports support transfer speed of up to 5Gbps, 10 times faster than USB 2.0. It is also backward compatible with USB 2.0/1.1. 1080p movie can be transferred through UH720 under 2 minutes 18 second, while it takes 7 minutes 36 second with a USB Hub equipping USB 2.0 ports only and the actual transmission speed is limited by the setting of the device connected.

## Extra 2 Charging Ports for All Your Devices

Extra 2 USB ports supporting 2.4A outputs are specifically designed for ultra fast charging. It charges most USB-charged devices, no matter devices with large battery like tablet and smartphone, or gadgets with tiny battery like smart wearable devices, at full speed.

# Features

## Minimize the Charging Time

## Exclusive TP-LINK Smart Charging Technology Invented to Charge Fast

TP-LINK Smart Charging technology intelligently identifies the connected devices and automatically delivers the fastest possible charge to your smartphones, tablets or other USB-charged devices to minimize the charging time.

\*Fully charging iPhone 6s Plus takes no more than 150 mins with CP220 while an original charger only reaches 60% in that certain period of time.

Short circuit

Over-voltage

Over-current

Over-heating

## Protect Both Your Devices and Precious Data

UH720 has a sophisticated circuit design with multiple protections for your devices against over-heating, over-current, over-voltage and short circuit. A Built-in surge protector keeps both your devices and data safe in the process of transferring data. UH720 support USB ports hot swapping that can be safely connected and disconnected while the computer is powered on and running.

## Plug and Play without Installing Driver

UH720 supports Plug and Play feature for devices running Windows 10/ 8.1 / 8 / 7 / Vista / XP or macOS and Linux systems.

# Features

---

## Considerate Design

A dim white LED indicator on the power button helps visualize the connection status and similarly, 7 dim white LED indicators beyond each USB port also indicate whether the devices are properly connected.

# Specifications
