

## 2 x 2.5" HDD & SSD Expansion Bracket

No.: 40554

Install two 2.5" hard drives or SSDs in a 3.5" Bay

### Description

- Allows the installation of up to two 2.5" HDD's or SSD's in a single 3.5" drive bay.
- Easily expand or upgrade the mass storage of a PC, server or workstation
- Built to ensure maximum compatibility with 2.5" drives
- Suitable for drives up to 9.5mm in height
- 2 year warranty

The Lindy 2 x 2.5" HDD Expansion Bracket is a compact, intuitive solution for the installation two 2.5" hard drives or solid-state drives (SSD) into a single 3.5" drive bay. Ideal for use with small form factor PC's, workstations and servers.

The design ensures compatible PC's can be optimised with single, or dual SSD's, providing exceptional read and write speeds, as well as un-paralleled security and reliability over traditional disk-based drives.

### Technical details
