

AS110D0

Get your monitor in the optimum position easily with AS110's mechanical gas-spring arm

Vesa Connection

Any monitor equipped with a VESA mounting grid (100x100 or 75x75) can easily be attached to the monitor arm. The VESA mounting system is a widely used solution that most monitors are equipped with. Four screws hold the monitor securely to the mount, by its centre of gravity.

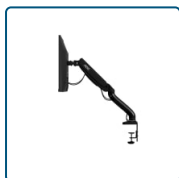

Swivel & Tilt

Some monitor stands come with a limited tilt and swivel range. Using a monitor arm increases your monitor's range of motion dramatically: You can tilt the monitor in a wide range so it points upwards or downwards for the optimal viewing angle. The integrated swivel enables you to turn the display horizontally.

C-lamp or Grommet Mount

Choose between Grommet or C-lamp mount to sit the monitor arm firmly on your desk.

Cable Management

Using the detachable covers on the monitor arm, simply push through your cables inside the pre-allocated routes in the monitor arm. After fitting both power and display cables inside, close the covers and experience a tidy desk with neatly organised connections. Cables are kept in place even when moving the display or turning it into portrait mode.

Mechanical Gas Spring System

Smooth motion in extension, retraction, or changing orientation. The precise mechanical gas-spring allows easy adjustment with just a firm hand move, and the monitor stays sturdily in its adjusted position. Easily adjust it anytime to get the most ergonomic position. Spring tension is adjustable for lighter/heavier monitors for easy movement and firmness.

General

Modellname	AS110D0
EAN	4038986636728
Produktlinie	Accessories
Kanal	B2B
Abschnitt	Consumer, Business
Veröffentlichungsdatum	02-09-2019

Product Features

Ergonomisches Einstellsystem	Gas Spring
Empfohlener unterstützbarer Monitorgrößenbereich	13" - 27"
Integriertes Kabelmanagement	✓
Gewichtskapazitätsbereich (pro Monitorarm)	2 - 9 Kg
Maximale Höhe	440 mm
Höheneinstellbereich	320 mm
Strecklängenbereich	460 mm
Kippbereich	-45° ~ +60°
Schwenkbereich	-90° ~ +90°
Neigungsbereich	360°

Warranty

Garantiezeitraum	5 Years
------------------	---------

Dimensions / Weights

Produktgewicht	2.4 kg
Verpackungsmaße (L x B x H)	41 x 28 x 12 cm mm
Verpackungsgewicht	3.0 kg

What's in the box?

Paketinhalt	Monitor Arm, Clamp mount, Grommet mount, Installation materials, User manual
-------------	--

Connectivity

Monitorhalterung mit VESA-Platten	75x75mm, 100x100mm
Sockel für Tischmontage	Clamp, Grommet mount
Dickenbereich des Tisches für die Klemmenbefestigung	0 - 10.5 cm
Dickenbereich des Tisches für die Manschettenbefestigung	0 - 8.3 cm
Lochgrößen des Tisches für die Manschettenbefestigung	0.7 - 8.7 cm

Design

Farbe	Black
Material	Aluminium Alloy
