

Active Noise Cancellation
for immersive sound

Spatial audio for cinema-like
sound that surrounds you¹

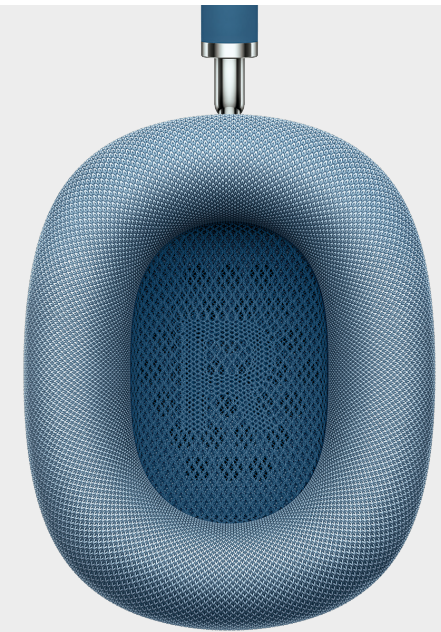

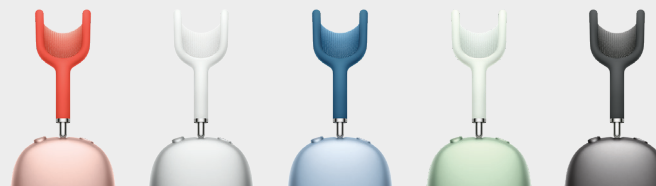

Designed for an
exceptional fit

Apple AirPods Max

Available in five colours

Apple-designed driver
for high-fidelity audio

Try on AirPods Max
to test them out

-  Open the Apple Music app to hear how great they sound.²
-  Open the Apple TV app and select an Apple Original with Dolby Atmos to experience spatial audio.³
-  Press the noise control button on the right ear cup to switch between Active Noise Cancellation and Transparency mode.

¹Spatial audio works with movies, TV and video in supported apps. Requires iPhone or iPad.
²Apple Music requires a subscription. ³Apple TV+ requires a subscription. 138081-GBEN
