

**Cleantype Xtra Touch Protect WL**

Battery tray

**PRODUCT PROPERTIES**

- Wireless Silicone keyboard with touchpad - perfect for use in medicine and industry
- Keyboard with silicone cover is easily washable and disinfectable
- Precise key function due to scissor key mechanics
- Protection rating IP68
- Key lock for deactivate the keys during cleaning
- Cursor control by integrated touchpad
- Flat key profile
- Excellent typing feeling
- Fold-out stands for tilting the keyboard for ergonomic working

SPECIFICATION

GENERAL:	
Number of keys:	83
Switch technology:	Scissor key mechanics
Keyswitch life:	ca. 5 mill. (per key)
Material cover / bottom:	Silicone / plastic
Colours:	white, black
Protection rating:	IP68
Data transfer:	Wireless 2,4GHz
Interface:	USB
Connector:	USB-A (RF USB-Dongle)
Power supply:	2 batteries type AAA
Weight:	630 g +-10 g

Operating temperature:	0 °C to +40 °C
Storage temperature:	-40 °C to +55°C
Dimensions:	367,1 x 136,1 x 25,5 mm
Warranty:	2 years
Certifications:	EN60601-1-2- Ed 4, CE, FCC-ID EN301489-1-17+EN300328
TOUCHPAD:	
Active area:	61 x 45 mm

TECHNICAL DRAWING

SPECIAL ATTENTION TO OPERATION AND FUNCTION

1. Fn - Layer

The keyboards of the Xtra series have an Fn layer. This is used to call up the following functions / function groups:

1. 1. KeyLock

- In order to be able to switch off the keys for cleaning the keyboard without having to disconnect the keyboard from the PC, the keyboards of the Xtra series have a key lock.
- The key lock is activated and deactivated by pressing the key combination [Fn] + [F5].
- As long as the key lock is activated, this is indicated by the first three LEDs flashing.

1. 2. Keys from the navigation key area

[Print] = [Fn] + [F8]
 [Scroll Lock] = [Fn] + [F12]

The activated Scroll Lock status is indicated by the Scroll Lock LED.

[Insert] = [Fn] + [F10]
 [Delete] = [Fn] + [F9]
 [Home] = [Fn] + [←]
 [End] = [Fn] + [→]
 [Page ↑] = [Fn] + [↑]
 [Page ↓] = [Fn] + [↓]

1. 3. Numeric pad

- The keyboards of the Xtra series have a compact keyboard layout with 83 keys.
- Similar to a notebook, this layout includes a numeric pad located in the alpha keypad, which can be accessed via the Fn layer.
- Switching between the alpha keypad and the numeric pad is done with the key combination [Fn] + [F11].
- The activated numeric pad is indicated by the Num Lock LED.

2. Energy-saving status LED indication on the wireless keyboard version

- The status LEDs of the Xtra series Wireless keyboards do not light up constantly when the status is active - as is the case with wired keyboards. They only light up when the status is called up by pressing the Fn key.
- After activating the respective status, the Num-Lock, Caps-Lock and Scroll-Lock status LEDs only light up for approx. 1 to 2 seconds and then go out.
