## TECHNICAL DATA

### COMPATABILITY (SKU)

Rise Freedom Rolling Kiosk  
with Cling Enclosure  
(UCLGMCRSTDW)

### PRODUCT

The sleek Rolling Rise Freedom Universal gives you the ability to combine a Tablet and Keyboard in one base. You can choose a range of accessories so that you have the perfect kiosk for your specific needs. The adjustable metal pole, which is the core of this product, provides complete cable management and is made of highest quality materials. The height of the workstation is adjustable so that users can use it while standing or sitting - an advantage that allows healthier work. The Rise Freedom Universal Roll kiosk is a workstation that is ideal for integrating and deploying tablets in mobile-connected environments.

- Visiting trolleys for hospitals and clinics - complies with the safety standards required for a medical device
- warehouse or retail workplace; simply keep an eye on inventory and offer customer service at the POS
- Freestanding mobile POS terminal for shopping events and holidays
- Temporary office workplace for overcrowded offices or an alternative to the traditional desk
- Mobile podium for lectures, services, music events and conferences
