SpaceMouse[®] Wireless

Bluetooth[®] Edition

Product	SpaceMouse Wireless – Bluetooth Edition
Document	Product Copy Master Document (PCMD)
Category	SpaceMouse
Language	EN

Part-Nr.	3DX-700115
EAN / UPC	4260016341443 / 821123701151

Product Name with Tag Line

SpaceMouse Wireless – Bluetooth Edition

Product Copy – Short

Designed for professionals and enthusiasts alike, SpaceMouse Wireless enables engineers, architects and 3D creators to navigate, sculpt and design effortlessly in 3D applications. Refine intricate models, explore creative solutions, and craft immersive presentations, embracing seamless control in the palm of your hand - whether at your desk, in a meeting room or on the move.

Connectivity options include a wireless connection via Bluetooth or the 3Dconnexion Universal Receiver, or a cabled USB connection that charges your device at the same time. A high-capacity rechargeable battery offers reliable connectivity for up to one month without charging.*

*Battery life of up to one month based on 8 hours of use per day, 5 days per week.

Product Copy – Mid-Length

Designed for professionals and enthusiasts alike, SpaceMouse Wireless enables engineers, architects and 3D creators to navigate, sculpt and design effortlessly in 3D applications. Refine intricate models, explore creative solutions, and craft immersive presentations, embracing seamless control in the palm of your hand - whether at your desk, in a meeting room or on the move.

The 3D controller cap of the SpaceMouse Wireless boasts a 6-Degrees-of-Freedom (6DoF) sensor that allows intuitive manipulation of digital content and camera positions inside 3D applications. Powered by the 3DxWare® 10 software, the two programmable side buttons on the SpaceMouse Wireless offer endless customization options, including application-specific commands, radial menus and macros.

Bluetooth technology, as well as the included 3Dconnexion Universal Receiver offer two options for working wirelessly, while the USB cable connects and charges your device at the same time. A high-capacity rechargeable battery offers reliable connectivity for up to one month without charging.*

*Battery life of up to one month based on 8 hours of use per day, 5 days per week.

SpaceMouse Wireless – Bluetooth Edition

Designed for professionals and enthusiasts alike, SpaceMouse Wireless enables engineers, architects and 3D creators to navigate, sculpt and design effortlessly in 3D applications. Refine intricate models, explore creative solutions, and craft immersive presentations, embracing seamless control in the palm of your hand - whether at your desk, in a meeting room or on the move.

Immersive 3D navigation

3Dconnexion's patented 6-Degrees-of-Freedom (6DoF) sensor allows effortless and precise manipulation of digital content and camera positions inside 3D applications. A simple push, pull, twist or tilt of the 3D controller cap lets you intuitively pan, zoom and rotate 3D models. This frees up the other hand for simultaneously using a standard mouse to select, create or edit models.

Reliable Connectivity

The SpaceMouse Wireless offers the reliability of a wired 3D mouse in a wireless format, thanks to its dependable wireless technology, and a high-capacity rechargeable battery which allows up to one month of use without charging.*

Three connectivity options allow users to choose between a wireless connection, either via Bluetooth or the 3Dconnexion Universal Receiver, or using the USB cable which charges the device at the same time.

*Battery life of up to one month based on 8 hours of use per day, 5 days per week.

Powerful Software and Customization

Two programmable side buttons on the SpaceMouse Wireless provide users with endless customization options specific to the software application in use. Powered by 3Dconnexion's 3DxWare® 10 software, users can assign application commands, radial menus, as well as custom macros to the side buttons, using a single driver for all 3Dconnexion devices.

Carry Case Included

The SpaceMouse Wireless comes with a compact, lightweight and durable carry case to keep the device safe from unnecessary wear and tear during transport. Whether switching between locations or working on the move, users can enjoy full mobility and rest assured that their SpaceMouse Wireless is perfectly protected.

Features and Functions

- Advanced 3D navigation
- Wireless and USB-C connectivity
- Rechargeable battery lasting up to 1 month between charges
- 2 programmable side buttons
- Compact footprint for small workspaces
- Brushed steel base for device stability
- Lightweight and durable carry case

Technical Specifications

- 3Dconnexion Six-Degrees-of-Freedom (6DoF) sensor
- 3Dconnexion 2.4GHz wireless technology
- Bluetooth Low Energy
- Rechargeable lithium polymer battery with 1100 mAh
- Dimensions (LxWxH): 78 x 78 x 53 mm / 3.07 x 3.07 x 2.09 in
- Weight: 450 g / 15,87 oz / 0.99 lbs

Supported Operating Systems

Microsoft® Windows, macOS

[More information](#)

Package Contents

- SpaceMouse Wireless — Bluetooth Edition
- Carry case
- 3Dconnexion Universal Receiver
- Cable USB-A / USB-C (1.5m)

Certifications and Registrations

CE, UKCA, EAC, FCC, IC, MIC, KC, RCM, BSMI, NCC, WEEE, RoHS-EU, RoHS-CN

Warranty

3-years limited hardware warranty
