

Tripod

00004646 "Rotary Smartphone" 150 Tripod, Set with Bluetooth® Remote Shutter Release

Highlightstext:

- Tripod for blur-free photos and stability on uneven terrain, suitable for smartphones, compact and system cameras
- Flexible alternative to large tripods: ideal when things need to move quickly or when there isn't enough space for a large tripod, for example
- Its compact size makes it ideal for travelling, holidays, hikes and outdoor trips
- With the combination of the tripod and holder, take blur-free photographs with the smartphone
- Can be used completely folded up as a selfie monopod
- Stepless height adjustment thanks to telescope mechanism
- Cross-struts and rubber feet for firm grip on smooth, slippery and uneven surfaces

- Swivel smartphone holder for portrait and landscape format
- Extremely flexible, for smartphone width of 5.8 - 8.8 cm
- Compact design
- For selfies and videos, perfect for video diaries, blogs and ideal for out and about
- Clamp spring holder with recess on the surface ensure a firm grip, while rubber protects the housing from scratches

- Bluetooth release for smartphone and tablet cameras, ideal for selfies
- Connection via Bluetooth directly with the smartphone or tablet
- Allows unusual photo and selfie angles
- For selfie photos and videos, blogs, ideal for trips, for life on the move and for action photography
- Better focusing, faster snapshots, resulting in better pictures and sharp, un-blurred selfies
- If the smartphone or tablet is positioned in a suitable spot, both arms can remain free - the extended selfie arm is passé
- Safe photography in high-action situations
- Perfect for party and group shots because the range of up to 10 m allows a much wider image field
- Independent of self-trigger mode
- Small and compact, the Bluetooth shutter release can go anywhere

Note for Consumers:

The function of the Bluetooth shutter release depends on the software on your device.

Please see the product information provided by the manufacturer to determine whether the remote shutter release is supported by your smartphone or tablet, or take a look on the Internet.
