

Wacom Pro Pen 3D Part number: KP505

Overview

Taking creativity to another dimension

Designed with 3D creativity in mind, the Wacom Pro Pen 3D provides full navigational control in 3D. The three pen buttons are set right at your fingertips and allow you to pan, zoom and tumble in a range of 3D applications. Each button can be quickly customized for many functions in nearly any 3D or 2D application. The Wacom Pro Pen 3D also utilizes Wacom's most advanced pen technology for an incredibly sensitive, precise and natural experience.

- Three fully customizable pen buttons let you tumble objects, pan, zoom, model, sculpt or modify creative tools in 3D and 2D applications
- Wacom Pro Pen 2 performance included: 4x greater pressure sensitivity*, exceptional tilt-response and lag-free tracking provide greater creative control
- Works with Wacom MobileStudio Pro, Wacom Cintiq Pro or Wacom Intuos Pro (2017 model) and with any Windows or Mac application
