

Live every day as an adventure. HMD XR21 is made to withstand the elements and equipped to capture stunning moments. Up to 2 days of battery life¹ means you won't have to cut the adventure short. Certifiably tough, it shrugs off dust, water blasts, and drops from up to 1.8 meters². No matter where you go, you can trust HMD XR21 to deliver reliable performance and peace of mind.

Made in Europe

Made and tested in Europe, HMD XR21 passes strict software and malware checks before it reaches you. And with the storage and processing of customer data collected from our global phone and tablet device variants being centralized on a Google Cloud Platform based in Finland, complying with the GDPR requirements, your information stays safe and secure.

More than tough

Whether you're seeking out the Northern Lights, ascending the Alpine peaks, or basking on the sands of the south, this tough explorer is prepared. Expertly crafted from strong materials and 100% recycled aluminum, HMD XR21 can handle just about any environment. It's even certified to MIL-STD-810H and IP69K standards.

Your data is in safe hands

Whether you're browsing, banking, or shopping, HMD XR21 keeps your data secure. With security updates until August 2027, it stays tough against the latest security threats.

Long lasting in every way

With a 1-year screen replacement guarantee,³ up to 3 years of warranty⁴ and software updates till August 2027, time is just another challenge that HMD XR21 stands up to.

Made with the planet in mind

HMD XR21 features a 100% recycled aluminum inner chassis. And because it's incredibly robust, you won't have to worry about getting a new phone any time soon – that's a big help toward saving raw materials.

¹Based on a real-life usage test by HMD Global. The test included active usage of a device for 5 hours per day with a new battery. Usage included e.g. gaming, video streaming, calling, sending SMS, browsing and using apps (such as social media, news, navigation and music). The test was conducted with normal device settings in a lit indoor environment. The device was left on standby overnight. ²Based on durability test conducted by HMD Global. MIL-STD-810H certified up to 1.5m drop protection³ Only available in Europe, Australia, and New Zealand. Comes with one free screen replacement, should you break it during the first year from the purchase. Find out more https://www.hmd.com/en_gb/screen-replacement-promo-terms. ³3-year warranty only available in Europe, Australia, and New Zealand. For other markets, please see Manufacturer's Limited Warranty. ⁴From the global launch date of HMD Pulse. ⁵Pre-installed system software and apps use a significant part of memory space. ⁶Battery has limited recharge cycles and battery capacity reduces over time. Eventually the battery may need to be replaced. ⁸Battery has been tested by HMD Global to maintain at least 80% of its original capacity after 800 full charging cycles.
