

BUSINESS DEVICES THAT ARE A CLASS APART

The mid-range ThinkPad L Series offers enterprise docking, enhanced security features and optional remote management capabilities.

ThinkPad L15 Gen 1 (AMD)

Smarter
technology
for all

Lenovo

Although mid-range, this business laptop comes with built-in biometric security and other modern features that help users stay productive from anywhere. It is powered by the new AMD Ryzen PRO processors with up to 8 cores for fluid performance when multitasking. The expansive 15.6" anti-glare display, with an ultra-narrow border, is great for creating or viewing content. AMD Memory Guard enables full memory encryption to help protect data should the PC be lost or stolen.

REASONS TO BUY

Mobile users will appreciate the 11-hour battery that can optionally be charged to 80% capacity in just one hour. There are 2x USB-C ports for quick transfer of videos, design files and large data sets, and to connect essential peripherals like an external monitor.

When working remotely, a weak WiFi signal can throttle productivity. The optional 4G WWAN module in the device uses a cellular network to provide reliable data connectivity from anywhere.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
