

This compact desktop supports a variety of needs - from basic to power users; connect up to 3 displays at 4K resolution, and configure with 2x M.2 SSD drives and 2x SATA HDDs. Optional graphics, 128GB memory capacity and 3x PCIe expansion slots provide scope for future upgrades. New on this model are additional security features, modern standby and an intelligent cooling system that reduces fan noise and boosts performance.

### **REASONS TO BUY**

Security features include a self-healing BIOS which can restore itself in the event of a BIOS update failure or if maliciously attacked. The BIOS-controlled optional Chassis eLock prevents unauthorized removal of components, by locking from the inside. A wide range of I/O ports include USB-C, USB3.1, a serial port and optional parallel port.

With Modern Standby this desktop will keep emails and applications up to date with the latest data even when asleep, wake more quickly and consume less energy.

Optimized to reduce power consumption with Energy Star 8.0 and EPEAT Silver energy efficiency certifications.

The ThinkCentre M9 Series offers more expansion and performance capabilities than any other desktop in our portfolio; perfect for users who need higher computing performance than average.

# Recommended for this device

## ThinkPad X1 Active Noise Cancellation Headphones

Ambient & electronic noise cancellation, integrated boom-less mic for calls

Bluetooth 5.0 connectivity with USB-C charging in under 3 hours

Lightweight 214g (0.47lbs) design with memory foam ear cups

## Lenovo Pro Stereo Wired VOIP Headset

 $\ensuremath{\mathsf{USB}}\xspace$  or 3.5mm analog connection with integrated call controls

Skype for Business and Microsoft Teams certified

HD noise-cancelling microphone

## **Keep Your Drive**

Keep your drive(s) before returning a faulty device

Dispose of business data on your terms

Removes the need to track movement of sensitive data
