

Power Cable, UK 3 Pin Plug to IEC C19, black, 2m

No.: 30459

Description

- UK Mains Plug to IEC C19
- 13Amp fuse fitted
- 100% electrical and mechanical inspection
- Fully moulded and VDE approved
- 10 year warranty

The LINDY UK to C5 cables are ideal replacements for missing or damaged UPS power cables. The C19 connector is used on most UPS units to cope with the additional power requirements.

Perfect for use in professional areas (recording studios, light systems and also for event locations of any kind, etc.) – but you can also use them in private sections.

Due to the high temperature resistance from -10 to 70°C during the operation these cables can also be used in non air-conditioned areas.
