

ARTICONA is Bechtle's own brand of IT accessories for the modern workplace and stands for quality and reliability in everyday business.

ARTICONA Magnetic 33.8 (13.3") Privacy Filter

Article number: 4808135

In today's world, where data protection and discretion at the workplace are becoming increasingly important, ARTICONA offers an elegant solution: the magnetic privacy filter for 33.8 (13.3 inch) screens with a 16:10 aspect ratio. This high-quality filter, measuring 293x190mm, can be effortlessly attached to your notebook monitor thanks to the included magnetic strips. Whether in the office or on the go, your sensitive information remains protected from prying eyes. The package also includes a cleaning cloth to ensure that your screen remains clear and free from annoying dirt. The accompanying installation sheet guides you step by step through the simple attachment process and helps you protect important information. Micro louvers smoothly darken the image without streaks, making it impossible for others to see texts or images on the display from the side. Additionally, the film protects the display from dirt, scratches, or fingerprints. Highlights: Premium quality. Cut-out for camera and light sensor. Anti-glare. Complete privacy protection from an angle of 60 degrees. Magnetic, removable without any residue. Durable due to scratch protection up to 3H pencil hardness. Always clear visibility and high color fidelity.
