

Hama N150 Nano WLAN USB Stick, 2.4 GHz

USB Devices | WLAN USB Stick

- WiFi protected setup helps set up encrypted connections automatically

Item : 00053302

GTIN : 4007249533029

More product information

- Ultra-compact USB 2.0 stick for wireless connection of a PC or notebook with WLAN routers or access points (infrastructure mode)
- Also enables the connection to other WLAN devices without router or access point (Ad-Hoc)
- Compatible with IEEE802.11n (150 Mbps), IEEE802.11g (54 Mbps), IEEE802.11b (11 Mbps) and WiFi (WiFi: products of different manufacturers are standardized and allow thus the operation with different wireless devices.)
- Enables radio encryption via WPA/WPA2 as well as 128/64 bits WEP (WEP - abbr. for "Wired Equivalent Privacy"; predecessor of WPA, an encryption method.)
- Data rate of up to 150 Mbps, automatic adjustment to maximum possible speed according to the reception conditions and the remote station
- The high data rate enables e.g. video/audio streaming, network gaming and Internet telephony

What's in the Box

- 1 WLAN USB stick
- 1 quick reference guide

System Requirements

- Operating system: Windows 10/8
