### CHARGE 2 AT ONCE

There's one for USB-A and one for USB-C. Making charging your devices more convenient.

### COMPATIBILITY

Use it with any Fairphone model or another device.

## Specifications

## Description

This versatile dual-port charger can handle multitasking. It's designed with recycled plastics, and made to match your needs. That means it's compatible with a range of electronic devices, including all Fairphone models and non-Fairphones alike.

With its 30W USB-C port, it'll jumpstart the battery of your Fairphone 4 to 50% in just 30 minutes or the battery of your Fairphone 5 to 50% in just 20 minutes. Coupled with the 18W USB-A port, and you've got one well-rounded charger. Take it with you when you travel within the EU, or keep a neat charging area at home. It's pretty convenient.
