00185825 Key Finder, for Android "Find My Device" App, Bluetooth, white

Highlighttext:

- Searching is yesterday, finding is now: the Key Finder helps keep an eye on all devices and objects and find them again at any time in combination with the "Find My Device" app
- It's all in the crowd: Add the Key Finder to the "Find my device" app and find things again using millions of Android devices from the Google network
- Track it down: Track down the missing object with the help of the loud audio signal (up to 78 dB)
- Safety first: Advanced encryption means that unauthorised spying on location data and movement is prevented
- Losing things is over: the key finder can be attached to backpacks, keys and all important things and even to dogs who like to go off on their own sometimes
- With a hole and additional loop, secure the Key Finder directly to a key ring or to eyelets on a backpack or bag
- Water-resistant to IPX5
- The button cell can be replaced and lasts for around a year

System Requirements:

Operating system: Android 9.0 and later

We recommend you to update the system with the latest version.

Note for Consumers:

Works with Android products are checked by Google and especially designed for connection to Android devices. Google requires high quality standards and verifies these before the products are launched onto the market.
