

Keepit Backup and Recovery for Microsoft Entra ID

Industry-leading coverage of Microsoft Entra ID

Microsoft Entra ID holds identities and provides authentication and authorization for your organization’s critical SaaS applications. Losing its objects and policies — due to cyberattacks, accidental deletion, or outages — means disruption to your business and additional stress for you and your team.

Awarded for its ease-of-use, Keepit’s leading coverage of Microsoft Entra ID ensures that your data is securely backed up in our vendor-independent cloud and can be recovered, or rolled back swiftly and accurately when incidents occur. It effectively minimizes the impact of data loss and eliminates the burden of rebuilding the Microsoft Entra ID environment.

Unmatched coverage

With the broadest coverage of objects and policies, including Intune, BitLocker, and LAPS, you remain confident in your ability to recover data at any time.

Fast recovery

You can quickly recover and roll back changes to objects and policies. Rapidly identify changes and determine which to recover in case of disruption.

Assured data integrity

You have confidence that your data can’t be modified or deleted. Stored in our vendor-independent cloud, Microsoft Entra ID objects and policies remain accessible, at all times.

The risk

Microsoft Entra ID showed over **7,000 password attacks** per second blocked in 2024

Source: Microsoft Digital Defense Report 2024

The impact

\$500,000 was the cost of recovery for Carlsbad after a contractor deleted 1,200 user accounts

Source: United States Department of Justice

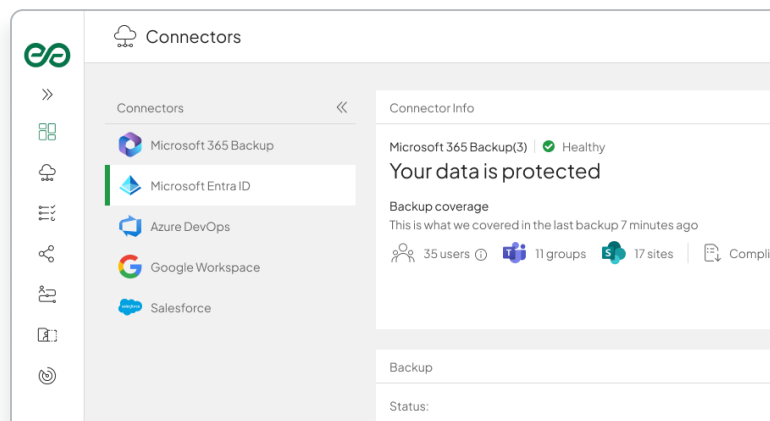

Proven benefit

Recovery time of **less than 3 hours** for a Keepit customer after a targeted attack

Source: “Keepit enables rapid recovery from cyberattack”

“Keepit for Entra ID played a crucial role within the recovery process by allowing the customer to quickly restore all compromised user identities to a fully operational state prior to the recovery of their data.”

Siddick Elaheebocus, Founder and CEO of INNOVISION

What's in Keepit for Microsoft Entra ID

KEY CAPABILITIES

Outstanding ease-of-use

Built to protect SaaS applications, Keepit is quick to implement and intuitive to use.

Multiple restore options

Restore objects in bulk or granularly to guarantee fast and precise recovery.
