

Simply work quickly and ergonomically!

DisplayShift² Classic

Kindermann's DisplayShift²-series includes three models of mechanically height-adjustable display mounts: Two Classic and an education model including side wings, which has been specially designed for the education sector.

The Classic models can be permanently mounted on the wall or optionally be used in combination with a mobile stand.

The systems are compatible for all common displays and touch displays in the weight range of approx. 31 - 43 kg (4031000503) and 51 - 74 kg (4031000502).

Special features

- 
 Simply work fast! No button pushing, no waiting time. The DisplayShift² is adjusted to the desired height in no time at all.
- 
 Successful endurance test of the product with over 50,000 cycles as well as a corresponding TÜV-certification* according to DIN EN 14434 guarantee the highest safety standards
- 
 Quick and easy installation, long-term use without maintenance and power-free application saves you money.
- 
 The DisplayShift² Classic models can be manually adjusted to any height in an instant, providing users of any size with an optimal ergonomic work environment for using interactive touch displays.
- 
 DisplayShift² stands for product availability: Fast delivery times, 5-year warranty with advance replacement and 10-year spare parts supply on our own products.
