HDMI HDBaseT Cat5 Extender 100m

Article number: 954018

Next-generation HDMI extender with HDBaseT technology. Transfer native Full HD video and audio over distances of up to 100 m (1080p) or 70 m (2160p) via a network cable (AWG 24 bulk cable is recommended to achieve optimum performance). The extender supports resolutions up to Ultra HD (4K2K, 2160p), 3D video, HDCP, Deep Color and HD audio. A single AC adapter is needed at either the transmitter or receiver.

- HDMI extender with HD BASE-T technology for up to 100 m transfer distance
- Outstanding picture quality thanks to native data transfers
- 100 m range at 1080p, 70 m range at 2160p
- Supports high resolutions up to 4096 x 2160 (Ultra HD)
- Requires only an inexpensive network cable
- Supports 3D, HDCP, HD Audio, Deep Color
- Requires only 1 power supply (at either transmitting or receiving end)
- Compact size
- High-quality metal enclosure provides optimum protection
- Incl. grounding kit
