Ordering Information

Model	PD1520s
Article number	MR.JY611.001
EAN	4711474303035

Technical Specifications

Projection technology	DLP 3D Ready & HDMI 3D
DLP Chip	0,33" DMD
Version	DMD
Resolution	1080p Full HD (1,920 x 1,080 px)
Display Format	16:9 (native) / 4:3 (supported)
Contrast	-
Displayable Colours	16.7 Million Colors
Brightness	1,200 (standard), 960 (eco) ANSI Lumens; 4,000 LED Lumens
Focus / Focal distance	F = 3.00 / f = 0,65 mm, Auto Focus
Projection size (diagonal)	0,95 ~ 3,05 m
Projection distance	1.0 ~ 3.2 m
Throw ratio	1.20:1
Zoom / Digital-Zoom	1:1.0x / 2x
Image Offset	100 %
Horizontal / Vertical frequency	50 ~ 60 Hz
Projection Modes	Front- / Rear- & Front-Ceiling- / Rear-Ceiling-Projection
Light technology	RGBLED
Life (hr.)	20,000 (standard), 30,000 (eco)
Keystone Correction	+/-30° (Vertical, Manual, Auto), +/-25° (Horizontal, Manual, Auto), 4-Corner adjustment
Speaker	8W speaker, bluetooth wireless audio (V 5.0, BT in/out)
Weight / incl. packaging (kg)	1,32 Kg / 2,26 Kg
Dimensions / Shipping dimensions (mm)	210 x 210 x 53 mm / 260 x 247 x 107 mm
Power Consumption	110 Watts (Standard), 60 Watts (ECO), <0.5 Watts (Standby)
Noise level	22 (eco) db
Uniformity (%)	85 %
Color	white/ silver

Input Ports

HDMI with HDCP	1x HDMI (2.0)
----------------	---------------

Output Ports

USB Type A	2x USB (Type A 2.0), share output port
------------	--

Included Accessory

HDMI cable	1x 1.5m
------------	---------

Automatic Keystone Correction

Thanks to the automatic vertical keystone correction, the Acer projector automatically compensates for trapezoidal distortion if the projector is not positioned exactly vertically and projects a rectangular image.

Instant Pack

InstantPack guarantees the lamp safety of Acer ColorBoost projectors. The current lamps from renowned manufacturers such as Osram and Philips are not damaged in the event of a sudden loss of power. (Acer recommends that the projector be powered until the fan stops) The lamp warranty is 1 year with no hour limit.

Auto Shutdown

The Auto Shutdown function automatically shuts down the Acer projector, if no input signal is received after a preset time. This function can be set individually via the menu and helps to save power and lamp hours.

AC Power On

With the AC Power On function, the projector is able to turn on automatically when the projector is powered. You no longer need to turn on the projector separately, but can start the projector directly, for example by turning on the power in the meeting room.

Wireless Projection

Acer Wireless Projection: Never lay cables again! The included Acer Wireless Adapter allows you to project wirelessly and saves you the hassle of laying HDMI or VGA cables.* Project content from your notebook, smartphone or tablet in seconds without any loss of quality! * Depending on model. If the Acer Wireless Adapter is already included with your projector, you can find it in the "Optional Accessory" section.

Multimedia Playback

Multimedia Playback: Project images, videos, music, office files or PDF documents directly from the USB stick. You don't even have to switch on your PC!

HDMI Power On

With the HDMI Power On function, the projector is able to turn on automatically when the projector receives a signal via HDMI or VGA. You no longer need to start the projector separately, but can simply switch on your notebook, receiver or game console and the projector will automatically switch on as well.

Auto Focus

Projecting has never been so easy: thanks to Auto Focus technology, you can place your projector on the table and turn it on, with the image automatically and instantly coming into focus. This saves you valuable time and gives you maximum installation flexibility.

SmartTV

The smart SmartTV projector gives you the complete audiovisual experience. Download the apps of your choice. Whether streaming (Netflix, Prime ...), music (Spotify, Soundcloud ...) or social media (Instagram, TicToc ...) - there is the right app for everyone.

Instant On/Off

Unlike conventional lamp-based projectors, there is no need to warm up or cool down the device. The user can switch off the projector and then immediately disconnect the power cable without damaging the device, saving time.

LED light source

The environmentally friendly LED light source is mercury-free, long-lasting and energy-saving. It enables vivid colors and long-lasting brightness stability. The LED light source enables an incredible service life of 30,000 hours and therefore 10 years with 8 hours of use per day.
