GROUP
15M EXTENDED CABLE

Group 15m Extended Cable

Easily customize your conference room set-up with GROUP 15m Extended Cable, a DIN cable that replaces the 5-meter cable included with Logitech® GROUP. The GROUP 15m Extended Cable increases the distance from the hub to the camera or speakerphone with a single, plenum-rated cable that can be routed through a conduit or drop-ceiling for super-clean conference room installations.
