ARTICONA L15 39,6 cm (15,6") Privacy Filter

Articelnumber: 4747026

Protect important data and documents from unauthorized, prying eyes. This privacy screen helps safeguard sensitive information and personal data, allowing for relaxed work during business trips and in public places. Micro-lamellae smoothly darken the image without stripes, preventing others from viewing text or images on the display from the side. Additionally, the film protects the display from dirt, scratches, or fingerprints. Thanks to the included mounting adhesive strips, the protective filter is easy to apply and just as easy to remove.

Highlights:

- Privacy protection from a viewing angle of 60° degrees
- 73% UV protection, reduces eye strain from the LCD screen
- Undisturbed work on confidential data
- Time savings through productive use of travel time
- Removal without any residue
- Protects against fingerprints and dirt
- Durable due to scratch protection up to 3H pencil hardness
- Always clear visibility and high color accuracy
- Unchanged quality of image resolution
- Also available in other sizes and formats
- Comes with a cleaning cloth
- Adhesive strips
- Transparent adhesive pads
