System Requirements:

For Internet radio you will require broadband Internet access via WLAN.

Note for Consumers:

DAB/DAB+

The DAB/DAB+ provision is being expanded in numerous countries. Find out more about the current roll-out situation on the Internet or in a specialist retail store. A general overview of the global network expansion can be found at www.worlddab.org.

To improve reception of FM or DAB/DAB+, position the device near a window or connect a flexible aerial.

Control via smartphone or tablet

To control via a smartphone / tablet you will require the "UNDOK" App. All devices must be on the same network to allow control via the UNDOK App.

UNDOK App

The UNDOK App is available free of charge from the Google Playstore and Apple App Store for smartphones and tablets.

Spotify Connect

To use Spotify Connect you will require a Spotify account and broadband Internet access.

Bluetooth Streaming

Bluetooth streaming is possible with virtually all smartphones and tablets that have a Bluetooth module.

Automatic backlit display adjustment

If necessary, the sensor can be disabled and the backlight adjusted manually.
