Neomounts MOVE Lift X FL55-885BL1 TV Trolley - 65-105" - max 120 kg - motorised height adjustment 125,4-235,4 cm - 50mm/sec - VESA 200x200-1000x600 - lockable - black

The Neomounts FL55-885BL1 MOVE Lift X is a mobile floor stand for displays from 65" up to 105" with a maximum weight capacity of 120 kg. The trolley has 100 cm motorised height adjustment (50 mm/second), is operated with a digital control panel featuring three memory settings and height limitation settings and features an anti-collision system for extra safety. A lockable hardware compartment is integrated into the trolley.

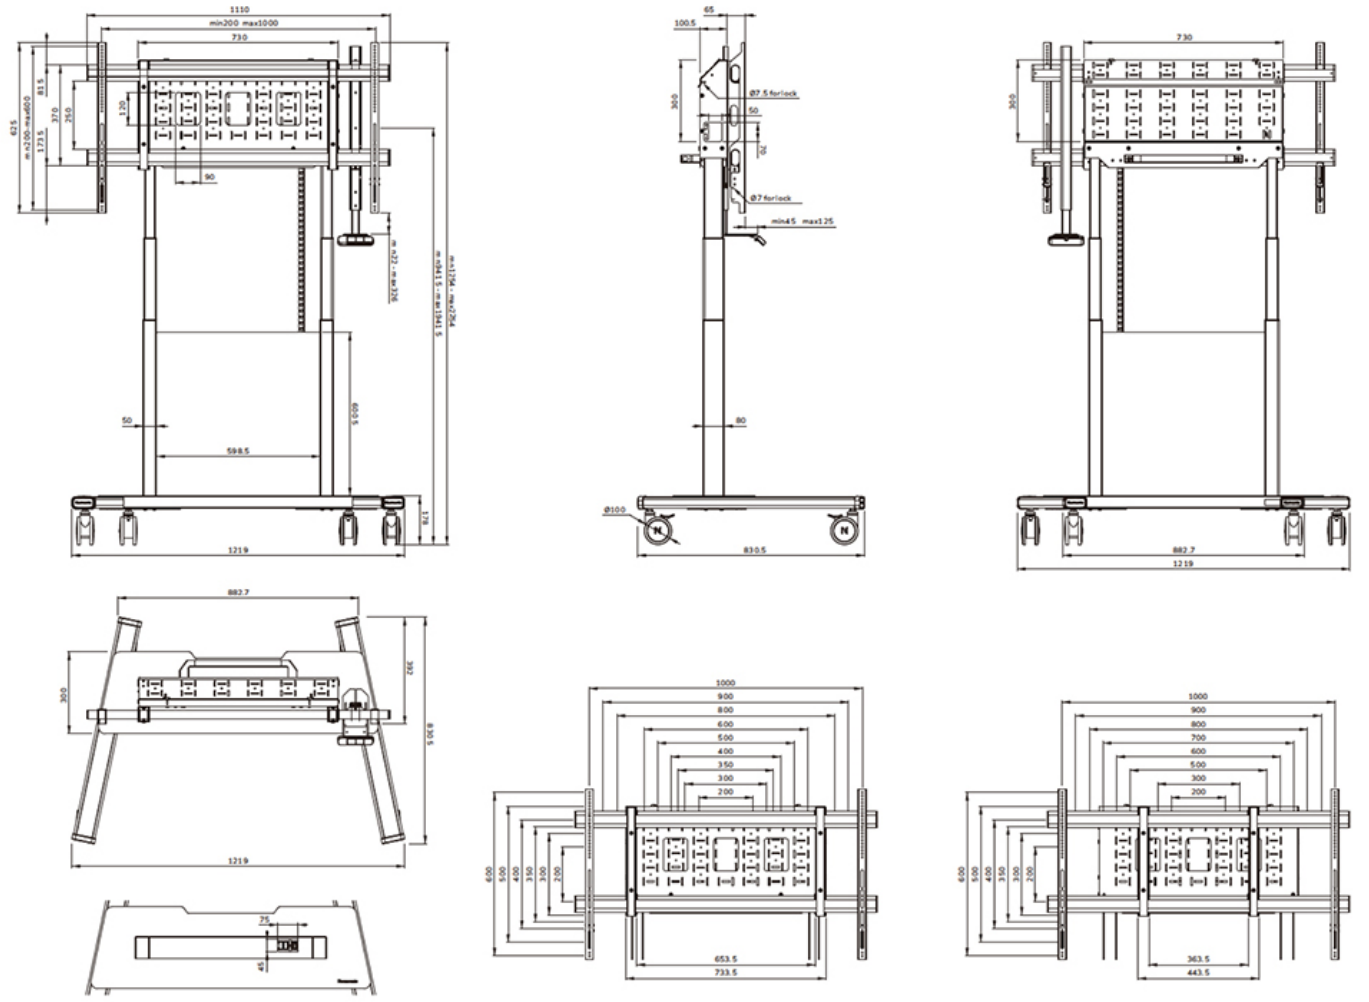

The MOVE Lift X trolley is designed for flexible use and can be easily moved from room to room. Four 10 cm solid double locking caster wheels ensure smooth and easy movement, while allowing the trolley to be securely locked in place when needed. This makes the FL55-885BL1 ideal for meeting rooms, classrooms, presentation areas and other professional environments where screens need to be repositioned regularly. Tightly integrated cable management conceals and routes cables from floor stand to screen, while a stylish felt cover at the front neatly conceals the lower base for a clean and professional look.

The floor stand is packed partially pre-assembled, to ensure fast and easy installation. The display can be secured by locking the brackets using a padlock (not included). The FL55-885BL1 is suitable for screens that meet VESA hole patterns from 200x200 to 1000x600 mm.

The universal AV30-500BL videobar & multimedia kit and ABL-875 shelf are optionally available and enable the installation of a separate cam shelf and multimedia device shelf to the trolley.
