

Secret 4-Way for iPhone 7

Premium Blickschutzfolie

Smartphones are part of our daily lives, both for business and leisure. We are becoming increasingly mobile and also use our devices in public places. The DICOTA privacy screen protectors optimally protect your personal data from prying eyes. The Premium line offers impressively high quality and durability and is easy to attach. Thanks to a silicone layer, the filter adheres directly to the screen. Bubble-free attachment and no residue when removed.

The Premium privacy screen protector not only prevents unwanted insights into your smartphone, but also protects the screen against scratches. Other product features include the high mechanical resistance and easy removability. The 4-Way-Technology protects the screen from viewing on all four sides (left/right and top/bottom). At the same time, the touch functionality of the screen remains completely intact. A practical and effective method to ensure that only you can view your data. Ideal for the use in hotels or on the bus, train or airplane
