Vertiv™ Liebert® GXT5 UPS

750 - 3000VA 230V

Intelligent and Efficient UPS for Protection of your Mission-Critical Applications

Intelligent and Efficient UPS for Protection of Your Mission-Critical Applications

The Vertiv™ Liebert® GXT5 UPS is an online double conversion UPS solution which offers premium power outage protection and continuous power conditioning in a compact and flexible rack/tower form factor.

The Vertiv Liebert GXT5 single phase UPS operates with high power efficiency, making it ideally suited to protect critical infrastructure in both centralized and edge network applications.

Scalable runtime options with matching external battery cabinets offer additional flexibility when extended uninterrupted power is required. Plus, the Liebert® GXT5 provides battery health status and replacement date prediction for intelligent battery health management.

The UPS system is easy to deploy and maintain due to its user-friendly LCD interface and remote management capabilities supported by the Vertiv™ RDU101 communications card which makes the Liebert GXT5 compatible with infrastructure management solutions such as Vertiv™ LIFE Services, environmental sensors, Vertiv™ Power Insight, and more.

With market leading efficiency and unity power factor operation, the Liebert GXT5 will meet your critical application needs. You can rest assured that your business is protected with this Vertiv solution.

What's in the box

- Liebert GXT5 UPS
- Quick Installation Guide and Safety Instructions
- USB type A to B cable (2 m)
- RS232 cable (1.8 m)
- Stabilizing feet for Tower Stand and 4-Post Rack Fixed Rail Kit
- 2 x IEC C13 to C14 output cables (2 m) for 750 - 1000 - 1500 VA; 3 cables for 2000 - 3000 VA
- Input power cables (UK, AUS, Schuko) for 2000 - 3000 VA (2.5 m)
- Free Vertiv Power Assist software for local UPS status and shutdown, or Vertiv Power Insight for remote network management

Vertiv Liebert GXT5 Features

Leading UPS Technology

- High output PF = 1.0
- Full color graphic LCD display with gravity sensing
- Individually programmable outlets for power-cycling hung equipment and to optimize battery runtime for critical applications
- External battery cabinets with auto-detection
- Battery health status and replacement date prediction
- Remote management, update and configuration
- Optimized thermal management and variable speed fan

Efficient and Green Product

- High efficiency (up to 94%) in online mode
- Even higher efficiency (up to 98%) in ECO mode
- Programmable outlets for scheduled shutdown of equipment that is not in use, resulting in significant power savings
- RoHS and REACH compliance

Solutions Wide

- Compact Rack / Tower design
- Broad range of services and extended warranties
- Easy to install, configure and operate
- Free Vertiv™ Power Insight management software
- Optional Vertiv RDU101 network card with advanced features for UPS management
- Compatibility with environmental sensors
- Integrated dry-contacts with selectable definition
- Serial port for out-of-band management with Avocent Serial Consoles
- Automatic internal bypass and optional external maintenance bypass

Vertiv™ Liebert® GXT5 Features

High power factor (1.0)
More usable power enables more connected loads saving space and costs.

1.0 PF

Efficiency (up to 94%) in online mode
Higher efficiency means an optimized energy management and lower heat dissipation, thus providing energy savings and improved reliability.

Efficiency (up to 98%) in ECO mode
Superior protection with maximum efficiency.

ECO

Colored graphic LCD display with gravity orientation
User friendly interface provides insight to UPS status for easy installation, configuration and operation.

COLOR LCD

Compact rack/tower design
Space-saving UPS provides rack space optimization and flexible installation.

Battery cabinets with auto-detection
Be confident your UPS is set up correctly to report available runtime when used with external battery cabinets.
Comprehensive service offering
Comprehensive service coverage and a standard 3 years exchange warranty.

How You Benefit from the Liebert® GXT5 UPS

Designed for high availability

- With **individually controlled output sockets**, you can manage power to individual devices without impacting other critical network equipment operation
- Minimum downtime of the device provided by **hot-swappable, user-replaceable battery** modules which can be changed during operation
- **Automatic self-test**
- **Extended runtimes** provided by the addition of external battery cabinets
- **Improved battery care** by temperature compensated battery charging
- **Intelligent battery health management** ensures a longer service life (optimized battery maintenance and replacement when needed)

User-friendly installation and operation

- Easy to read, gravity sensing **graphical color display**
- **Intuitive user interface**, local configuration and management
- Support for the new Vertiv suite of **remote management tools** (Vertiv™ Power Insight, RDU101 network interface card and serial connectivity support)
- **Autodetection of external battery cabinets** enables faster deployment and accurate runtime information
- **Remote UPS firmware upgrade** capability ensures your UPS has the latest features and enhancements

Optimized energy and capacity management

- ECO operating mode with **up to 98% efficiency**
- **Efficiency** in online double conversion mode up to 94%
- The **higher power factor (1.0)** ensures the connection of more loads and IT equipment
- 4 **individually programmable output sockets** can be used to extend runtime for the most critical loads and smart disconnection of the less critical ones

Seamless connectivity

- Four onboard, user-definable dry contact I/O for **integration of support management systems**
- Supports **SNMP, web, and environmental sensors** with the optional RDU101 communications card
- **Serial connection** for integration of Avocent® ACS product or direct serial management and control of the UPS

Vertiv™ Liebert® GXT5 | 750 - 3000VA 230V UPS

Accesories and Options

Vertiv™ Liebert® MicroPOD – Maintenance Bypass and Output Distribution

The Liebert® MicroPOD (Power Output Distribution) is a maintenance bypass option for UPS products, 3kVA and below. It allows removal of the UPS without powering down the connected equipment.

UPS Model	MicroPOD Model	Input socket	Output receptacles
GXT5-750IRT2UXL GXT5-1000IRT2UXL GXT5-1500IRT2UXL	MP2-210K	IEC60320-C14	8 x IEC60320-C13

Network Communication Cards and Environmental Sensors

Optional Intellislot cards are compatible with all Liebert® GXT5 systems.

Network Communications	RDU101	Intellislot network card for SNMP and web management, plus SN series environmental sensor support
	RELAYCARD-PG	Intellislot Relay Card
	USB485I	USB to RS-485 adapter for Modbus/RTU and BACnet/MSTP support
Environmental Sensors	SN-T	Modular with single temperature sensor
	SN-TH	Modular with single temperature and humidity sensor
	SN-2D	Modular with two door contact inputs
	SN-3C	Modular with three dry-contact inputs
	SN-Z01	Integrated cable with single temperature sensors
	SN-Z02	Integrated cable with three temperature sensors
	SN-Z03	Integrated cable with three temperature sensors & 1 humidity sensor

Comprehensive Services for Critical Systems

Power Emergency Package

The Power Emergency Package provides emergency support with 100% parts coverage and is available for single-phase UPS products up to 3kVA. Adding Vertiv services to your Liebert GXT5 ensures you are protected during an emergency.

- Five years service coverage
- 24x7 professional Helpline
- Advanced replacement of the faulty unit

- Shipping costs covered by Vertiv
- Coverage for both electronic parts and battery failures

- The Power Emergency Premier version also provides remote diagnostic and preventive monitoring with Vertiv™ LIFE™ Services, enabled via the optional Liebert® Intellislot RDU101 Card

Installation and Start-up Services

Installation and Start-up Services provide on-site technical support for installation and start-up of your UPS or battery cabinet, ensuring you get up and running as quickly as possible:

- Installation for 3kVA models includes mounting the new UPS and battery cabinets in 8x5 (PS-RUPS-INSTL85-006) or 24x7 (PS-RUPS-INSTL247-006)

- Start-up available for 3kVA models in 2 scheduling options, in 8x5 (PS-RUPS-ST85-006) or 24x7 (PS-RUPS-ST247-006)

- Services performed by a Vertiv factory trained technician

Build Your Total Infrastructure Solution with Vertiv

Discover expert designed IT infrastructure solutions with proven success in diverse environments and countless applications.
Vertiv™ Geist™ rPDU
Reliable power distribution with outlet level remote monitoring and management providing the highest level of power visibility and control.

Vertiv™ VR Rack
Self-contained 42U server rack designed to simplify equipment installation and provides an additional 6cm of useable depth.

Vertiv™ VRC
Keep critical IT equipment cool with a dedicated high-efficiency rack-mount cooling system with scalable capacity.

Cable and Air Flow Management
Included accessories ensure proper cable management and airflow to keep your equipment cool.

Software and IT Management
Monitor the entire system either locally or remotely to ensure you are alerted of out-of-range conditions that could result in costly downtime.

Liebert® GXT5
Protect mission critical equipment in the event of power loss or extreme power fluctuations.

Visit Vertiv.com or contact a Vertiv Sales Representative today to find out how Vertiv can help you configure an all-in-one infrastructure solution.
