## Outdoor box IP54 foldable black recycled plastic lockable

### General data

#### EFB Electronics: Outdoor Box

□ IP54 protection class: Safe from splash water, rain, dust and insects

The EFB Electronics Outdoor Box offers comprehensive IP54 protection. Your electrical connections remain safely protected from splash water, rain, dust and even insects - ideal for outdoor use in all weather conditions!

□ Spacious interior for versatile applications

With dimensions of 32,24 x 12,9 x 10,5 cm and 5 practical cable entries, the waterproof cable box is the perfect solution for storing power strips, large adapters and timers. A versatile solution for use in the garden, terrace and more.

□ Environmentally friendly, robust and with strain relief

Made from recycled, reinforced PP material, the box withstands rain, snow and dirt. Thanks to the built-in strain relief

and durable cable clamps, your cable connections remain secure, even under heavy use outdoors.

□ Easy to use, flexible installation and lockable security

Safe and user-friendly: Place your connections in the box, secure the cable with the clamps and effortlessly attach the box to any wall. The flexible installation allows the box to be attached both horizontally and vertically. For additional protection, the box can be locked with a lock to prevent unauthorized access.

□ Versatile: For garden, Christmas and more

Whether for lawn care, Christmas lights or pool pumps - the EFB Electronics outdoor box offers comprehensive protection for your electrical devices. An indispensable, waterproof solution for indoor and outdoor use!

### Product description:

EFB Electronics waterproof outdoor cable box - reliable protection for your electrical connections

Secure your electrical connections outdoors with the robust and versatile EFB Electronics outdoor cable box. With IP54 protection class, it offers reliable protection against splash water, rain, dust and insects - ideal for the garden, terrace, camping and more.

#### Highlights at a glance:

IP54 protection class: Withstands the harshest weather conditions, reliably protects against dust, splash water and insects.

Large interior: With generous dimensions (32,24 x 12,9 x 10,5 cm ), the box offers space for power strips, timers, large adapters and extension cables.

Durable and environmentally friendly: Made from recycled, reinforced PP material that can withstand rain, snow, dirt and temperatures down to -40 °C.

Flexible installation: Can be attached to walls both horizontally and vertically - for maximum adaptation to your requirements.

Lockable: Additional security thanks to the option of protecting the box from unauthorized access with a lock.

Built-in strain relief: Resistant cable clamps prevent tensile loads and protect your connections from damage.

#### Versatile applications

Perfect for a wide range of applications: from securing garden lighting and Christmas decorations to use with pool pumps, patio heaters and power tools. Whether in the garden, on the campsite or at celebrations - this box is an indispensable helper.

#### Safety and ease of use
