Lindy's Active HDMI 2.0 10.2G cables combine sleek, modern design with superior performance to provide high quality, reliable HDMI transmission over longer distances. These cables support 10.2G HDMI bandwidth to display full 4096x2160@30Hz 4:4:4 8bit resolutions, four times the resolution of Full HD 1080p.

These cables are ideal for use with source devices such as Sky Q, PS4, XBOX One and 4K Blu-Ray Players, and are perfect for use in home cinema installations that require longer length cables with no compromise on video or audio performance.

Please Note: Lindy active cables must be connected in accordance with the instructions. The connector marked "display" must be connected to the monitor or screen. Failure to connect the cable in the correct manner will result in no signal. Some projectors have recessed HDMI sockets, please ensure they can accommodate the connector used on this cable.

Active HDMI cables cannot be connected together or 'daisy chained'.
