

Premium user experiences

Work smarter and faster with modern upgrades including native support for up to 4 high-res displays, faster network and USB speeds and more ports, including USB-A with PowerShare, to keep your devices charged without the need for PC power.

Power the AI PC smart office

Designed with enhanced compatibility and best in class power delivery, drive up to 130W to new Dell AI PCs (and 96W to non-Dell PCs).¹ All-new built-in management capabilities make this dock the right solution to power the AI PC smart office.

Modern manageability

The Dell Pro Dock is part of the world's most manageable commercial docking family, with flexible management capabilities, designed to uplevel IT efficiency and keep users working without disruption.¹

A leader in sustainable innovation

Built with at least 65% post-consumer recycled materials⁴ and packaged with 100% recycled or renewable packaging.⁵

Thoughtful design

Configure your workspace with an ambidextrous USB-C cable that can be routed left or right. Features a new robust USB-C connector, designed for enhanced durability.

Elevate IT efficiency

Simplify PC workspace modernization at scale

Unified IT experience

Centralize management through a single cloud-based console. When connected to a PC, the Dell Pro Dock, and other Dell peripherals, offer streamlined manageability from the Dell Device Management Console.²

Simplify firmware updates

Reduce IT complexity by deploying a single firmware file across PC workspaces. Minimize end-user disruption with silent firmware updates that are executed upon dock disconnection.

Enhance compatibility

Dell Pro Docks provide more universally compatible features, such as MAC Address Pass-Through and Power Button Sync, for a better docking experience across brands.

Designed for sustainability

The new generation of Dell Pro Docks reflect a commitment to sustainable design innovation to reduce their environmental impact

Sustainably crafted

Designed with up to 65% post-consumer recycled (PCR) plastic, with 2 types of recycled materials in the chassis and bumpers¹

Eco-conscious packaging

Dell Pro Docks are packaged with 100% recycled or renewable packaging² to reduce packaging waste.

Seamless transitions

Asset Recovery Services help you responsibly and securely retire your legacy IT equipment, regardless of brand, while addressing your sustainability goals. [Learn more](#)
