## Cleaning Cloth 100 pieces

Article overview: 4193131

These electronics cloths are ideal for all automated systems, screens, optics, micro electronics, fibre optics, chemicals, pharmaceuticals and more. They are made from special felt fabric and highly absorbent homogeneous material. They are binder-free and anti-static, lint-free and are chemical and tear resistant. With their high-level absorbency and wear resistance they clean effectively wherever you need them to, and leave no residue.

- Binder-free, anti-static and completely lint-free
- Also suitable for very fine surfaces
- Material: mixed textile fibre
- 100 cloths per bag
