

## APA109GL

### Targus® 100 W GaN Wall Charger

- GaN technology for more efficient and safer charging
- Fast charge up to 4 devices simultaneously - from laptops to smartphones
- Smart PPS protocol works with your device to aid battery longevity
- Universal device compatibility with 2 x USB-C® PD ports & 2 x USB-A ports
- Travel-friendly with interchangeable global plugs (works in over 140 countries across the world)
- USB PD and PPS protocol plus Targus® quality ensures reliability and safety
- Compliant with global power safety certifications.
- Targus® 2 years limited warranty

#### Powerful GaN Technology

A modern alternative to traditional chargers, Gallium Nitride chargers don't require as many components so they're smaller and more efficient at transferring power, passing a high amount of wattage for longer durations. Not only are GaN chargers more compact and lighter in weight, but they produce less heat and run cooler than their silicon counterparts.

#### Safety First

This charger is designed with protection from over-charging, over-voltage, over-current, and over-heating so you can charge your devices without worry. All Targus products pass third party compliance testing and have a fire-retardant rating which meets UL requirements.

#### International Converters For Travel

Wherever your travels take you — whether for business or leisure — you can power up your devices virtually anywhere with the interchangeable pin converters and worldwide universal 100V–240V voltage. Plugs are compatible in 140+ countries in the Americas, Europe, Asia, and Australia.
