

USB Type A Wired Headset with In-Line Control

Part No.: 42870

Description

- USB Type A binaural headset for use in unified communications, call centres & home office setups
- In-built omni-directional microphone for vocal clarity
- Lightweight, adjustable design
- In-line control for volume adjustment and mute functionality
- 2 year warranty

Wired headsets are essential accessories for audio playback and speech, perfect within unified communication environments, as well as home and office conferencing and call setups.

The Lindy USB Type A Wired Headset with In-Line Control is a professional headset for connectivity with PCs, laptops, or other USB outputs. The binaural design provides clear stereo audio playback, replacing in-built PC or laptop speakers. The flexible omni-directional microphone captures the users voice clearly for superior video calling clarity. The in-line controls ensure simple volume and muting adjustment, great for flexible use within video conferencing. The headset's lightweight design ensures comfort even with all-day use within offices and call centres and they can be also used in conjunction with popular VoIP and Office software.
