

32.323

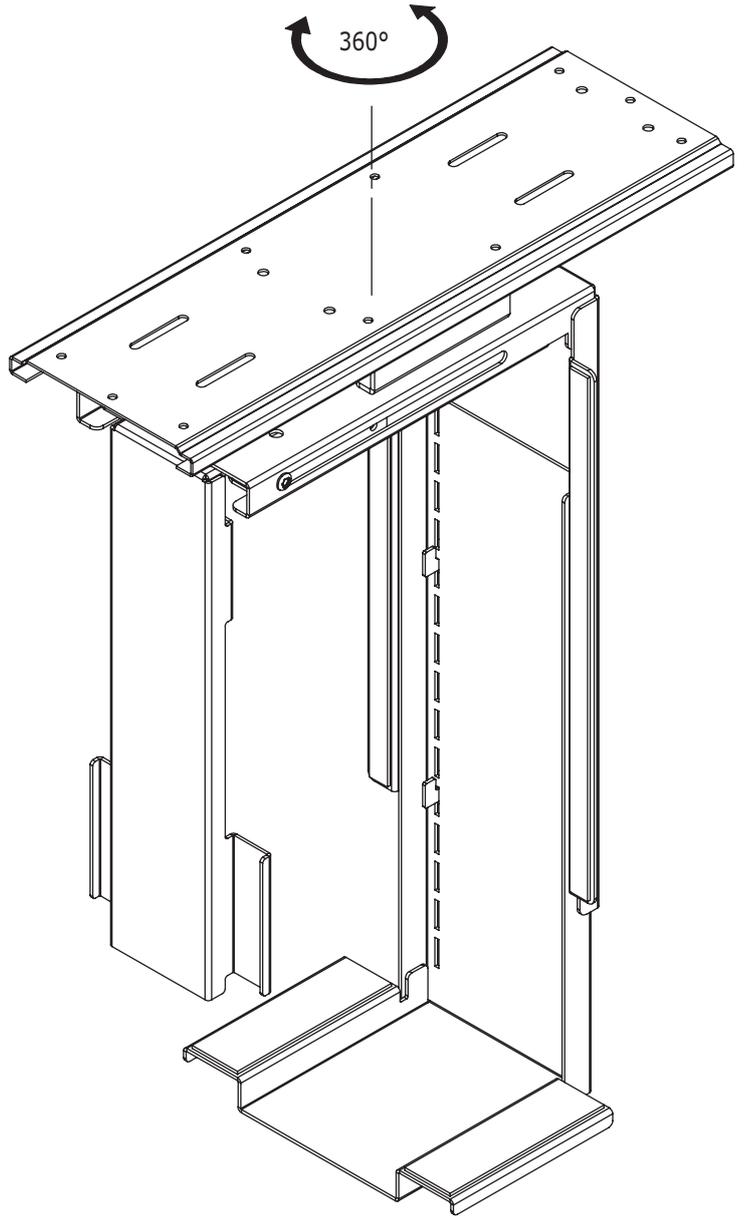

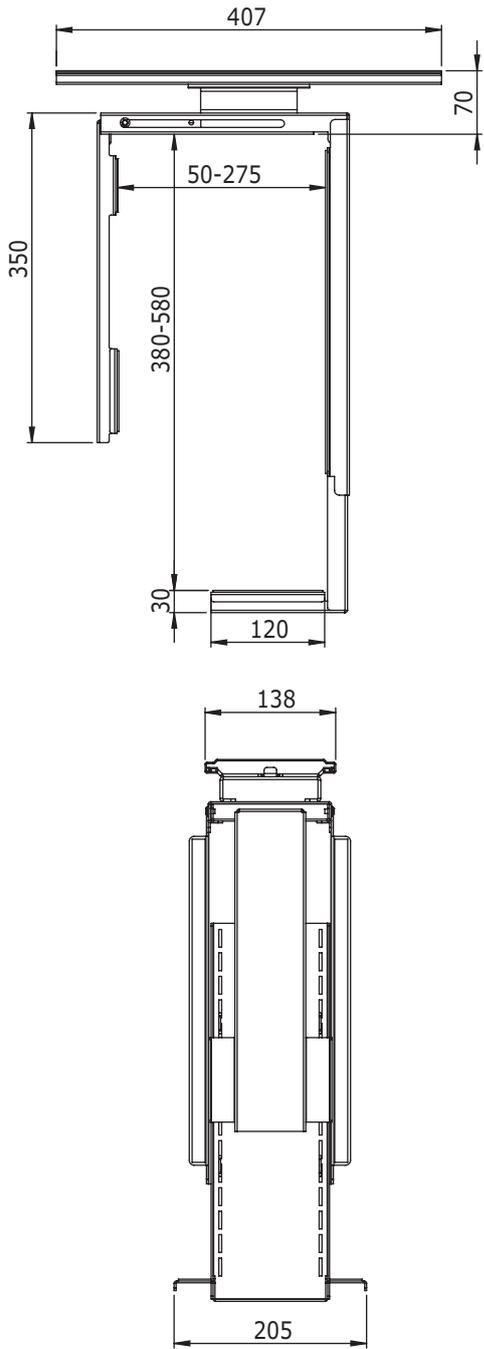

Top Grip CPU Holder 323

The Top Grip Pull/Out rotatable, will secure the CPU underneath the desk top. This version however can be rotated 360° and pulled out 265mm towards its user for even easier access. Especially useful when the CPU is mounted in a far corner of the desk or behind a desktop support bar. Stick and screw tape for easy installation.

- To be mounted on the bottom of the desktop
- Holds any CPU/PC between 50-275mm wide and 380-580mm high
- Can be pulled out 265mm and rotate 360°
- Self adhesive tape simplifies installment (stick and screw)
- Comes with all necessary screws and washers
- Height, width, depth adjustable and rotatable
- Max. weight capacity of 20kg
- Max. dimensions (wxdxh): 407 x 205 x 680mm
