

Lenovo ThinkPad

Thin and light with a 16:10 aspect ratio display and up to 86% screen-to-body ratio for a fuller view, the refined Lenovo ThinkPad T14s Gen 4 *i* combines mobility and performance for ultimate productivity in today's hybrid work environment.

Built on Intel vPro®, an Intel® Evo™ Design with 13th Gen Intel® Core™ i7 processor with more powerful discrete graphics options and new, faster LPDDR5X memory, this Lenovo ThinkPad speeds through any task with efficiency and confidence. Users can expect a better audio/visual experience, too, with a new OLED display option, separate 5MP + IR camera option, Dolby® Voice technology, and Eyesafe® technology to alleviate eye fatigue.

Industry-leading Lenovo ThinkPad and ThinkShield security features, like voice recognition, Power-On Touch Fingerprint Reader, webcam privacy shutter, and ultrasonic human presence detection, combine with Intel vPro® platform hardware-based PC protection to secure data and devices around the clock.

Plus, this device is more environmentally responsible than ever thanks to Lenovo's reduced-emissions manufacturing process, PCC recycled materials, and plastic-free packaging with 90% recycled content.

Lenovo ThinkPad T14s *i*

An Evo Design

Co-engineered with Intel, the Lenovo ThinkPad T14s Gen 4 *i* design will meet the requirements of an Intel Evo laptop through Intel's hardware specifications and key experience targets for responsiveness, instant wake, battery life, fast charge and intelligent collaboration.
