Converter tethers are compact, secure solutions for equipping the correct converter to a secure display cable, providing simple connectivity for different users and source devices.

The Lindy USB Type C, mDP & DisplayPort to HDMI 18G Converter Tether is a superior, multi-av solution with separate USB Type C, Mini DP and DisplayPort to HDMI converters, all fitted securely to a 15cm diameter stainless-steel tether for easy access when required. With a built-in clamp which fits around the display's HDMI cable*, this tether is perfect for presentation or collaborative environments where different users will have a variety of source devices and connections. This ensures the adapters are also fixed in place ready for the next user.

With active chipset conversion each converter provides enhanced compatibility with many different source connections and graphics cards including PCs, notebooks and tablets. Supporting resolutions up to 3840x2160@60Hz 4:4:4 8bit, each converter ensures a premium viewing experience, perfect for immersive learning experiences in classrooms, engaging conference room displays or field-based demonstrations and training.

*The HDMI cable clamp will fit cables up to approx. 8mm [0.31in] diameter
