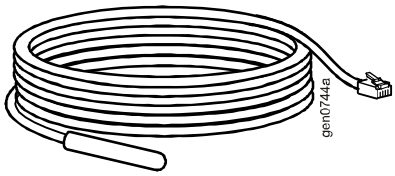
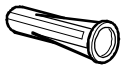
Temperature Sensor (AP9335T) Installation Instructions

Inventory



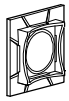
3.96-m (13-ft) temperature sensor (1)

#6 x 3/4-in sheet metal screw (1)



#8 wall anchor (1)

203-mm (8-in) tie wrap (5)



19-mm x 19-mm (3/4-in x 3/4-in) adhesive cable tie holder (3)

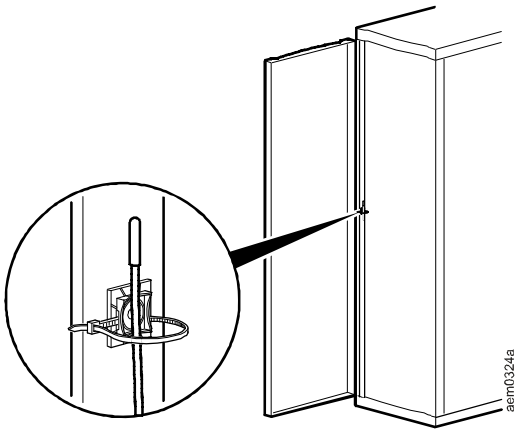
Wire clip (6)

Installation

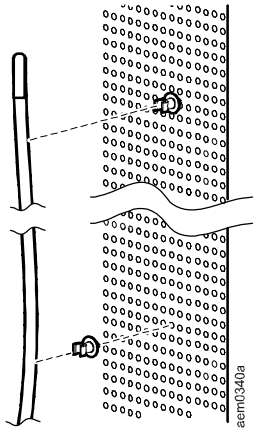
Caution: To avoid damaging the sensor, do not use a tie wrap or wire clip directly on the sensor when securing it. Use a tie wrap or wire clip, as shown in these instructions, about half an inch from the end of the sensor.

Note: Use adhesive cable tie holders, tie wraps, and wire clips to secure the sensor cable.

Vertical rail



Door



Wall

Note: Drill a 4.76-mm (3/16-in) pilot hole for the wall anchor.
