DA80

Enhance the experience

Turn every call into a smarter customer interaction with Plantronics DA Series audio processors — a powerful new range of audio enhancers that will help you make the most of your softphone investment.

Lightweight and simple to use, the DA80 comes with a USB easy-to-operate connection and Quick Disconnect feature so your team can easily switch between workstations. With built-in Digital Signal Processing for leading audio clarity, Noise@Work protection for associates, and enhanced controls to improve customer conversations.

DA80

Enhanced noise-cancelling

DA80

Intuitive call controls

KEY FEATURES

- Quick Disconnect feature provides walkaway convenience and compatibility with most Plantronics headsets
- Enterprise-class performance, compliance management and smoother VoIP adoption all contribute to higher return on investment from softphone deployments
- Automatic technology limits the user's exposure to noise over time, rather than just peak levels, to help meet international legislative obligations
- Easy, at-your-fingertips interface enables employees to bypass on-screen call control menus for better focus on callers
- Higher-quality wideband audio meets industry standards and enhanced noise-cancelling technology also supports security compliance as microphones are attenuated when the caller is not talking
- Downloadable firmware updates plus access to Plantronics Manager Pro and Plantronics Hub development suite aids inventory management

PRODUCT HIGHLIGHTS
